FREELANCE PROJECTS

Ezra's Escape

Mobile (Android) 2D top down casual survival game developed using Unity and C#.

Simple List

Cross-platform (iOS and Android) mobile app developed with Ionic Framework that allows users to create gift ideas and wish lists, while also allowing users to view each other's gift ideas and wish lists.

Sight Word Sidekick

Mobile (Android) educational game developed using Unity and C#.

Warrior Center

REST API, CMS, website, and mobile app (Android and iOS) developed with Node, Express, JavaScript, Angular, HTML, CSS, MongoDB, and Ionic Framework for accessing Warrior Center's latest sermons and viewing upcoming events.

Cayden's Run

Mobile (Android) 2D casual runner game developed using Java.

PROFESSIONAL EXPERIENCE

Software Engineer II | Rhodes Group

APRIL 01, 2019 – PRESENT

Gathered requirements, designed, developed, implemented, tested, and documented custom solutions, bug fixes, and new features on TriCore Reference Laboratories' CMS and health care provider portal (built in a Salesforce instance) using Apex, JavaScript, AngularJS, HTML, CSS, and Visual Studio. Setup and used Dell Boomi atoms to manage integrations from various data

sources to push data to Salesforce. Managed a Drupal website, providing customizations, new pages, and software updates utilizing PHP, SSH, and the command line.

Software Developer | Faith Comes By Hearing

JUNE 25, 2018 – MARCH 22, 2019

Worked on an Agile (Scrum) team to fix bugs, add new features, and release new versions of Render (an oral Bible translation software for desktop) using C#.NET, Visual Studio, Amazon S3, Jira, and Bitbucket. Operated as the lead developer for the Bible.is Android application (current version has over 5 million downloads) using Java and Android Studio. Fixed bugs and added new features to Gideons International's Android application using Java and Android Studio.

Vacation Planner | The Walt Disney Company

OCTOBER 28, 2017 – JANUARY 23, 2018

Processed ticket transactions.

Applications Developer | Century Business Solutions

NOVEMBER 28, 2016 – MARCH 22, 2017

Designed and developed an Android mobile application for a custom payment gateway using Java, XML, and Android Studio.

Software Developer | Rite Engineering & Manufacturing Corp.

MAY 24, 2012 – JULY 5, 2016

Designed, developed, implemented, and tested desktop applications for order processing, shipping, and lien management, using Java (with JavaFX) and Eclipse.

Creative Marketing Manager | Techronics

DECEMBER 14, 2011 – MAY 23, 2012

Designed and co-developed an e-commerce website, and managed social media accounts.

IT Manager | AirSplat

JULY 15, 2011 – SEPTEMBER 20, 2011

Designed and developed new websites for airsoft arenas, stores, and forums, using PHP, HTML, JavaScript, CSS, and Adobe Photoshop.

Web Developer | DXG USA

MAY 10, 2010 – JULY 14, 2011

Managed a Magento e-commerce website, as well as developed additional features for it related to product registration, and technical support articles using PHP, HTML, and CSS.

Web Designer | Dedicated Media

JULY 16, 2009 – MAY 7, 2010

Designed web pages for various properties using Adobe Photoshop, HTML, and CSS. Created online and print advertisements for companies like Home Depot, Behr, and American Red Cross, using Adobe Photoshop and Adobe Illustrator.

Web Developer & Technical Support Supervisor | DXG USA

OCTOBER 10, 2005 – JULY 14, 2009

Developed and managed an HTML version of a website that was previously created with Flash. Hired, trained, and assisted technical support representatives.

EDUCATION

AAS in Computer Information Systems | Kaplan University

SEPTEMBER 2008

GPA 4.0, Deans List all semesters.
